Addition of Multirotor Category <7kg

About This Course

This course expands a participant's existing Remote Pilot Licence (RePL) to include sub-7KG Multirotor operations.

The course is certified by the Civil Aviation Safety Authority (CASA):

- Suitable for certified drone pilots seeking Multirotor endorsements
- Quick and efficient category addition process
- Includes theory revision and practical assessment

Public Safety Training & Response Group courses are conducted under a CASA-certified training syllabus and are delivered by a CASA-certified Remote Operator Certificate (ReOC) holder.

Training Standards

Public Safety Training & Response Group adheres to high standards, including:

- Professional face-to-face training delivered by experienced trainers, many with ex-military and ex-emergency services experience,
- Training in all relevant legislation, Australian Standards, the most up-to-date techniques, as well as real-life examples and helpful anecdotes from the trainers' own career experience,
- Practical guided hands-on training with modern equipment.

Qualifications

Upon successful completion of the Addition of Multirotor Category sub-7kg course, Public Safety Training & Response Group will issue participants with a Statement of Attainment for the following accredited units:

- Addition of Multirotor Category sub-7kg

Participant Requirements

Participants require an Aviation Reference Number (ARN), which can be obtained via the myCASA portal, which can be accessed here: https://www.casa.gov.au/resources-and-education/our-systems/mycasa-portal/create-account-mycasa

Participants require general literacy and numeracy skills, and a moderate level of fitness.

Participants at face-to-face learning should wear in comfortable clothing, nothing too loose, long pants and enclosed shoes.

For online learning, internet and computer access is required, along with general computer skills. The computer must be able to play audio.

Where applicable, participants must have completed any required pre-course online learning and assessment prior to attending face-to-face training.

Participants must be aged 14 or over. Participants aged 14–17 require written consent from a parent or legal guardian.

If a participant is suffering any transmittable illness (flu, common cold, Covid, etc), please do not attend the training to avoid impacting other participants.

Course Formats

The course is required for those who have never completed the accredited course, or it has been more than three years since completing the course and their qualifications have lapsed).

Course Delivery

Courses are predominantly delivered on a face-to-face basis at our training rooms at Oxley, south-west Brisbane, which can cater for up to 30 participants.

Where applicable, there may be some pre-reading and learning required, or units of online learning. Learner guides are provided.

By prearrangement, training can be conducted offsite at your business premises, educational facility, community hall, or government office. Please contact us to discuss.

This course includes:

- 2 days face-to-face theory and practical learning,

Our training facilities (Oxley) include plenty of free off-street parking.

For bookings outside our regular schedule or at your location, please contact us to discuss.

Learner Support

Our trainers are professional, flexible and approachable. They provide support and feedback as required to assist all course participants.

If you have any concerns and questions about the course or delivery schedule, please raise it with the trainer.

Assessment

The course includes assessments of practical skills and a written questionnaire.

Recognition of Prior Learning (RPL) is not offered for this course due to the need to learn up-to-date methodologies and demonstrate competencies to ensure high level upskilling.

Course Outcomes

The Addition of Multirotor Category sub-7kg course provides comprehensive

instruction on operating an Unmanned Aerial Vehicle (UAV) of Multirotor Category sub-7KG

Each candidate will demonstrate skills in an environment that provides realistic in-depth, scenarios and simulations to assess candidates' skills and knowledge.

Course outcomes include:

- Certification for Multirotor operations
